I'm a dedicated and organized employee. I'm not afraid to take on new challenges and I utilize my diverse know-how whenever I get the chance. My technical skills have developed through intensive and successful studies as well as previous work experience with my passion for wanting to understand more. The experiences of living abroad and tutoring reflect my energetic and smiling personality along with my social skills, which have, in addition to my customer service skills, advanced through my work experience. I'm looking forward to working at an environment where I can develop my skillset further and help create something meaningful using my knowledge of programming.
